

PROJECT FOCUS

.....

To develop a dashboard for economic stability that can be expanded to include other Bastrop County indicators of health.

DELIVERABLES

-
- Tableau dashboard displaying demographic, economic, and health data for Bastrop County
 - Documented code for automating the process of recreating and updating the dashboard
 - Slide deck presentation for introducing dashboard to Bastrop County stakeholders

Bastrop County Cares works to develop comprehensive community initiatives by identifying community priorities, collecting and analyzing data, and bringing together collaborative partnerships that will result in community solutions. It identifies large community issues that no one organization can solve on its own and builds public will, advances policy, and mobilizes and leverages funding.
