

**PROJECT FOCUS**

.....

To automate CAN's ability to pull, clean, and analyze indicator data from the American Community Survey database.

**DELIVERABLES**

- .....
- Developed code for pulling US Census Bureau American Community Survey (ACS) data used in CAN Community Dashboard indicators, drilldowns, and the dashboard website
  - Developed code for cleaning and facilitating visualization of the raw ACS data
  - Included functionality in the code to streamline annual indicator review and update process

Community Advancement Network (CAN) is a partnership of government, non-profit, private and faith-based organizations who work together to enhance the social, health, educational and economic well-being of Central Texas. CAN provides a unique, collaborative forum to enhance awareness of issues, strengthen partnerships, connect efforts across issue areas, and facilitate development of collaborative strategies.
