

## PROJECT FOCUS

To improve the Foster Community's data collection methods for the information sessions it hosts with potential foster/adoptive parents.

## DELIVERABLES

- Two types of surveys to be utilized with foster community information session attendees
- Structured Excel workbook for collecting and tracking data from information sessions
- Survey administration user manual

Partnerships For Children's (PFC) is on a mission to empower and support abused and neglected children in the care of Child Protective Services. It works towards this mission through leading a collection of programs that offer resources, support and comfort for foster children and families in the Central Texas community.
