

PROJECT FOCUS

To improve the Rollings Foundation's ability to measure its impact on communities served in South Africa.

DELIVERABLES

- Water well distribution map
- Self-sufficiency grid specifying metrics and questions relating to self-sufficiency
- Organizational-level logic model
- Community partner surveys

The Rollings Foundation aims to encourage and equip people in South Africa to become self-sufficient through provision of basic and very essential needs such as food and water. It collaborates with a network of local individual partners and religious communities to coordinate, implement, and track progress of both its water well and school lunch programs.
