

**PROJECT FOCUS**

.....  
 To utilize Water With Blessings' GIS data to better tell the story of its various service areas.

**DELIVERABLES**

- .....
- Analysis of Water With Blessings' Haitian service area data
  - Development of a story map for Haitian service area
  - Story map development tutorial - a video that will enable future consultants and/or interns to recreate similar story maps for additional Water With Blessings service areas

Water With Blessings equips, empowers, and entrusts mothers to become Water Women – compassionate agents of change in their communities who filter clean water using a simple, inexpensive, and home-based filtration system for their families and neighbors. Water With Blessings currently works with more than 124,000 Water Women in 48 countries.
